

Gas Franchise Endorsed By Didsbury Town Council

At the regular meeting of the Council of the Town of Didsbury on Monday night, November 19, first and second reading was given to the by-law providing for a gas franchise with the Canadian Western National Gas Company.

Mr. McPherson, representing the gas company, was present and explained the various clauses in the franchise, which must first be approved by the Board of Public Utilities before the final vote is submitted to the ratepayers.

Under terms of the contract construction on the line will start by June 1, 1952, although it may be a year or more later before gas could be made available to householders.

The terms of the franchise provide for the laying of gas mains to the property line. From there users will pay installation charges of \$3 plus 60 cents per lineal foot, which would probably make installation cost on an average of \$35.00.

While the rate structure will eventually depend on final cost of installing the distribution system, the gas company has taken into consideration probable costs of the system, which would allow for the following rates:

General Rate (Domestic, commercial and industrial):
First 200 cubic feet—Minimum of \$2.50 per month.

All additional gas used, 45c per 1000 cubic feet.

Commercial and Industrial Rate: (Available to all commercial and industrial customers using in excess of 816 M.C.F. per year.)

Fixed charge, \$3.00 per month.

Consumption charge, 40c per 1000 cubic feet.

Further information regarding installation of gas shows that present coal furnaces can be converted to gas, which about 70 per cent of users in other centres have done. A regular gas furnace costs about 10 per cent more efficient.

When the Board of Public Utilities have given consent to the franchise between the town and the Canadian Western National Gas Company, a vote of the ratepayers must be taken to approve the by-law, and a date for a vote will no doubt be announced by Council in due course of time.

Lone Pine Orioles Have Christmas Draw

The November meeting of the Lone Pine Orioles was held at the home of Beverly Thompson with 10 members present.

To open the Christmas fund the code was repeated, and "Ham and Eggs" was sung. Roll call was a picture of a labour saving aid.

Thank-you cards were sent to those who helped with the dance, at which Mrs. Charles Koliut won the satin comforter and Henry Buhler won the doll. \$161.00 was cleared from the dance and it was decided to use part of the funds to get each member a Girls' Club Ring.

Joy Elliot gave an interesting demonstration on "how to set a table," and answered all questions that were asked.

Names were drawn for the Christmas gifts which will be brought to the December meeting, and the ten cent draw was won by Joy Elliot.

The contest, "Names of Cars," conducted by Mary Spragg, was won by Shirley Spragg for the seniors, and the junior contest conducted by Grace Weber was won by Sandra Brander.

The bit of fun for the juniors and seniors was won by Lois Shells. Jessie McCulloch won a prize for selling the most tickets during the month before the dance, and Mary Spragg sold the most at the dance.

The seniors learned how to make button holes and the juniors learned to hem tea towels, and will embroider them at the next meeting.

The December meeting will be held at the home of Mrs. H. Shells.

To close the entertaining afternoon an enjoyable lunch was served by the hostess.

Old Issue of Pioneer Found in Picture

Ed Shultz recently found an issue of the Didsbury Pioneer, dated November 27, 1903, in the back of an old framed picture, along with an old issue of The Farm and Fireside, dated July 9, 1891, which was published in Toronto.

The old Pioneer had much interesting news of the early days around Didsbury, and the following prices were quoted for produce:

Flour, per cwt. \$2.45; oats, per bu. basis Ft. Wm., 33c; barley, per bu. basis Ft. Wm., 38c; baled hay, per ton, \$9.00; potatoes, per bu., 35c; live spring chicken, per pair, 40c; fowl, per pair, 35c; ducks, each, 60c; geese, per pound 11c; creamery butter, per pound 18c; eggs, per doz., 16c; dressed baby beef, per lb., 6½c; dressed mutton, per lb., 8c; wool, per pound 7½c.

A letter by Messrs. Wm. Davies and Co., pork packers, Toronto, in the Farm and Fireside protested against the practice of feeding hogs on clover for the English market. The best bacon was from hogs fed on peas and dairy refuse.

Defence Area Set Up In Municipality

Representatives from Didsbury, Carstairs, Oids and Crossfield met in the Municipal Office at Didsbury on Wednesday afternoon, November 21, to discuss civil defence organization under the supervision of Mr. W.J. Bagnall, civil defence organizer for the Municipal District of Mountain View No. 43.

The gathering decided to set up a civil defence area to be known as Mountain View Civil Defence Area, and W.J. Bagnall was elected as overall controller of the area. Members on the board of directors will consist of the Reeve of the Municipality and the Mayors of the towns and villages respectively.

The defence area will not conflict with the civil defence organization of the towns and villages operating within the area, but will act in an advisory capacity on matters that pertain to the whole area in general, and in case of disaster the board and co-ordinator of the large area will be able to deal with emergency relief and other matters needing immediate attention.

Mountain View Hall Scene Of Presentation

On Friday evening the Women's Institute presented the art pictures to the various schools with a showing of famous artists and the way in which they make their pictures. There was also a film on the Banff School of Fine Arts, and an Indian hunting film.

On behalf of the W.I. Three pictures were given to each school on behalf of the Institute. The frames were donated by the Atlas Lumber Co., and the glass by Builders' Hardware.

A large number of people were present to see the art display and a special thanks is extended to Mr. Robert McCulloch who operated the Community Projector, donated by the Neapolis Skating Club to be used in the district and schools.

Mrs. Booker gave the vote of thanks on behalf of the teachers, and lunch was served by the ladies.

Quarterly Report Issued By Mountain View Health Unit

The third quarterly report of the Mountain View Health Unit, ending October 31, 1951, has been issued by Dr. F.J.G. Lishman, Medical Officer of Health, and shows that while school vacation months cut down the work at local schools, the re-organization of the Mountain View Health Unit has taken a great deal of the staff's time.

Under the new set-up the Mountain View Health Unit has been divided into five wards and taking the 1946 census as a guide the area serves 25,383 people, as follows:

Ward 1, Comprising M.D. 56, Town of Oids, Village of Sundre, and Northern third of M.D. 49. Member nominated by Oids, Mr. E.G. Miller.

Ward 2, Comprising Central third of M.D. 49, Town of Didsbury, Village of Carstairs. Member nominated by M.D. Mountain View, Mr. W.H. Metz.

Ward 3, Comprising Southern third of M.D. 49, with Village of Crossfield. Member nominated by M.D. 49, Mr. C. Fox.

Ward 4, Comprising the Town of Bowness, and that major part of M.D. 45 (Springbank) included in the Health Unit. Member nominated by Minister of Municipal Affairs, Mr. K. Luke.

At the end of September an office was opened at Bowness, and new clinics were established for Bowness West, Cochrane, Montgomery, Springbank, Crammond and Water Valley. This makes eleven clinics served by the Unit. (Since the above report a clinic has been opened at Seebe in the Calgary Power Co. hall.)

SHOPPING CARNAVAL PRIZES HAVE ALL BEEN CLAIMED

The five shopping carnival prizes in the recent carnival staged by the Didsbury merchants have all been claimed, with the following winners:

NOTE—It was inadvertently stated in our last issue that the winning number for 5th prize was 38,327. This was incorrect. The winning number for this prize was 38,328.

Mrs. O. Blain Hostess To Westcott W. A.

The November meeting of Westcott W.A. was held at the home of Mrs. Orval Blain with 15 members present and the gathering opened with Theme Song and Creed.

Devotions was taken by the president, Mrs. Jack Robertson.

Roll call was answered by "Thoughts on Peace" and Mrs. G. Youngs gave an interesting outline on the United Church W.A. rally held at Oids November 9.

The Citizenship conveyer, Mrs. Alex Robertson, gave a paper on Atomic Bombs and what to do in case of attack.

The Missionary topic was given by Mrs. Percy Hoegood and consisted of a study of a few chapters of the book "From Lakes to North."

The next meeting will be held at the home of Mrs. Ira Scott.

The meeting closed with the Lord's Prayer and "Blest Be the Tie" and lunch was served by the hostess.

Mrs. Gibbs Speaks To Cema W. I.

The Cema W.I. met at the home of Mrs. Jim Whitlow on November 21st with 10 members and five visitors present. The meeting opened by singing O Canada and repeating the Creed, followed by roll call and the minutes.

A discussion followed on cancelling the dance which was to be held on November 30, and the majority was in favor.

Mrs. Ann Gibbs, constituency conveyer, gave an interesting talk, and plans were made to hold a tea in the near future when a sweater will be raffled.

A rug demonstrator was present and he explained and demonstrated how to hook two kinds of wool rugs.

The raffle was won by Mrs. Diney.

The next meeting will be held at the home of Mrs. Van Haften in the form of a pot luck dinner on December 13.

After the meeting adjourned the members enjoyed a beautiful lunch.

The staff of the Unit has been augmented by two full time Public Health Nurses, Miss M.E. Hagerman, and Miss D. Nickel, and F. L. Evans of Didsbury was elected part-time secretary, Miss A. Mozley has been engaged as a second secretary-stenographer for the Bowness office, and her duties will be to assist the Health Nurses and M.O.H. with school inspections and other duties.

In the report Dr. Lishman deals with the sanitary inspections of schools and of water supplies for towns. In this connection arrangements are now being made to install indoor water closets in the Sundre school.

Regarding water supplies, the necessary permit has been obtained from the Department of Health for a piped water system for the village of Carstairs, and the next step in this direction is the holding of a plebiscite by the Carstairs ratepayers.

The Didsbury water supply is now satisfactory and the addition of an algeicide in small doses has eliminated the bacterial growth.

The second well drilled at Oids has given the town a plentiful supply of water.

No action is being taken regarding piped water supplies for Crossfield, Sundre or Cremona, and at Sundre it was necessary to condemn one spring used by a number of houses for a water supply.

The report covers the full activities of the Health Unit for the three month period ending October 31, 1951, and is interesting reading for those interested.

Farmers At Westcott Are Busy Threshing

Many farmers have completed their threshing during this spell of better weather and the straw piles dotting the sky look good. In the Westcott district there is a little feed in the country for the stock. Swaths, however, are still frozen down.

Congratulations to Miss Marlene Vipond who was the winner of the silver cup donated by the Builders' Hardware to the boy or girl having the most points in the West Didsbury Club Cup.

A whist party was held in the Westcott school last Wednesday evening, the proceeds going to the Christmas fund. There were only four tables played as the crowd was small due to all the activity connected with the threshing operations in the district. Prizes were given to the winners and Mrs. Albert Konechuh won first for the ladies while Mr. Albert Konechuh won the prize given to the man holding the highest points. The consolation winners were Mrs. Wm. Weidner and Harvey Konechuh.

Miss Phyllis Giesken, of Calgary, was a weekend guest at her home here.

Miss Elaine Goertgen, who is attending Henderson's Business College in Calgary, was a weekend visitor at her home.

Mr. and Mrs. Alex Konechuh of Calgary spent a few days at the farm here and were visiting their son, Albert and Allen Konechuh and families.

Miss Margaret Robertson of the University of Alberta, Calgary, spent the weekend with her family here.

Mr. A. Nevada spent Sunday at Crossfield with his wife and son who are now living there.

ON CIVIL DEFENCE

(By Mrs. H. Lynch-Staunton)

ARTICLE VIII

The atomic bombs used against Japan were large and costly. Since that time science has improved the methods of utilizing atomic energy. No doubt further simplification will continue. Therefore, are we safe in assuming that the atom bombs of the future will be so large and costly that their use will be reserved only against the greatest centres of population and production? It required a long series of steps to develop the first muzzel-headed cannon and the first powder into the modern high explosive missiles. The type of atomic bomb used against Japan and Bikini will probably be considered as crude and obsolete in time as the old muzzel-loading cannon is today.

Learn all you can about Civil Defence. It may save your life.

ALBERTA'S POPULATION UP 140,000 IN TEN YEARS

Alberta's population made a sharp
140,000 advance in the last ten
years, triple the increase in Mani-
toba, while Saskatchewan's popula-
tion declined, the Bureau of Statis-
tics reports.

The bureau, in another of its
series of preliminary regional esti-
mates based on the 1951 census,
estimated Alberta's population at
936,556, up from 796,169 in 1941.

This advance gave the oil-rich
province a big lead over Saskat-
chewan, which in 1941 led the prair-
ies with 895,592.

After 10 years of industrial devel-
opment in Canada, with population
tending more and more to Indus-
trial areas, Saskatchewan's popula-
tion dropped 66,817 to 829,175 in 1951.

Manitoba, still trailing behind the
other two, increased her popula-
tion by 12,071 to 771,815 from 759,
744.

The cost of food subsidies in
Great Britain totalled \$120 million
a year. The new government of that
country has announced that there
will be no cut in such subsidies.

Christmas Seal receipts for Red
Deer and Central Alberta for the

total \$630, according to D.W. Rob-

higher than last year's figures for
the same date, and leaves \$13,870
still to be collected to reach the ob-
jective of \$14,500 for Red Deer and
Central Alberta.

Provincial receipts reported by C.
Robert Dickey, general secretary of
the Alberta Tuberculosis Associa-
tion, now amount to \$18,500 toward
an objective of \$185,000.

Mr. Dickey pointed out that

OUR COUNCILLOR

Who seeks election from his ward
That seats him on the council
board
Who thinks he'll please his rate-
payers right
And be a big man in their sight,
And goes to work with all his might
To make his public record bright:
Our Councillor:

Who then, is asked to build and
make
A special road for Bill and Jake.
Who, if he can't do it "direct"
Must be very circumspect
In his delays, or else, "by heck"
Our Councillor:

They will some other man elect?
Who hears the delegates when
He's just a hundred "bones" to
spend
To buy supplies and build their
bridge
Across the creek at Horton's ridge
A matter of sixty feet,
Who, if he can't will lose his
seat?
Our Councillor:

Who does, when his allotment's
done
Takes his own man and "just for
fun"
Regards the roads or cuts some
weeds
Along the trail; while his farm
needs
The meadow sown to clover seeds?
Our Councillor:

Who is it rises with the morn
Who drives away the spotless
forlorn
To fix some road by graveling
For men who like unraveling
His reputation?
Our Councillor:

Who lays him down at night to
sleep
And prays the Lord his soul to

keep
And just has reached his second
snore
When Bill Jones pounds upon his
door
And swears somebody stole his
boar
And asks him what he pays him
for?
Our Councillor:

Who is it when his year is done
And election time has once more
come
Has grown a hide so thick and
tough
He does not care a pinch of snuff
What others say, nor yet how rough
They talk to him?
Our Councillor:

Who stands up then to talk a spell,
And tell them all to go—
Well—
Some other place? They shout and
hail
Him chief, a man of sense and
education
A patriot true, who's saved our
nation
Then put him back "by acclama-
tion"?
Our Councillor:

**NEW KOREA WINTER OUTFIT
FOR BRITISH TROOPS**

Girls employed by a Northamp-
ton, England, firm have been work-
ing overtime for the past ten weeks
turning out a new type of winter
outfit for British troops in Korea.
It is a complicated garment con-
taining 51 pieces of material and
consisting of a long jacket with at-
tached hood, made of grey-green
gabardine, lined with matching
wool pile. It is water and weather-
proof and weighs only 3½ pounds.

**DRASTIC STEPS TO ENFORCE
MOTOR CAR TESTS**

Warning to 100,000 Alberta Motor
car owners that rigorous action
will be taken if they have not con-
formed with compulsory car in-
spection regulations by Jan. 2,
1952, has been announced by Hon.
C.E. Gerhart, provincial secretary.

For some months the provincial
authorities have been making ap-
peals to motorists to observe the
new regulation.

The minister says that of the
100,000 licensed passenger cars in
the province, not more than a third
have been officially tested.

Now, to bring matters to a head,
the provincial government has de-
cided to set a "deadline" for Janu-
ary 2. By that date all passenger
cars and motor cycles in the pro-
vince must have been tested and af-
fixed with an official provincial
safety sticker.

Provincial authorities pointed out
that there are 1,500 approved test-
ing stations at garages and ser-
vice stations in various sections of
the province. They feel that ample
facilities have been provided, so it
is up to motorists to abide by the
regulations.

The provincial legislature at its
session last March passed legisla-
tion provided for the annual safety
tests of these motor vehicles being
made compulsory by July 1, last.

Owing to the fact that this was
the first year for such tests the
July deadline was not strictly en-
forced as all testing stations were
not ready by that date.

During the next month or so, it
was expected that many thousands
of cars would be tested. But this
has proved not to be the case.

Mr. Gerhart has made another ap-
peal to motorists to begin using the
testing stations without further de-
lay. While police action is indicated
after January 2, the nature of this
has not been disclosed.

Provincial government officials
are expected to announce that in
the case of those who have neglig-
ent to observe the testing regula-
tions, the police will be instructed to
remove such cars from the road.

When a car has been inspected
and found in a satisfactory condi-
tion, a yellow inspection sticker is
placed on the windshield. The fee
for each inspection is \$1.00.

Notes From the D.A.

(Hugh McPhail)

The following is taken from the
Dominion Department of Agricul-
ture "Farm News."

The breeding material for the
development of suitable varieties
of "sweet" or coumarin-free, sweet
clover is now available, a scientific
accomplishment first recognized
and fully appreciated by rabbits
which almost completely cleaned up
a nursery in Saskatoon where the
new varieties are being developed.
Some promising strains should soon
be available for distribution.

Sweet clover, contrary to the im-
plication conveyed by its name, is
not sweet, but bitter. Its bitter taste
which makes this forage crop less
palatable to cattle than could be de-
sired, is due to the presence of a
substance called coumarin. In addi-
tion to imparting a bitter taste of
sweet clover, coumarin is partly
converted to dicoumarol in improperly
cured sweet clover hay. The pres-
ence of dicoumarol is undesirable
since it may cause severe in-
ternal bleeding in cattle due to its
well known property of reducing
the clotting power of blood.

A coumarin-free variety of sweet
clover was known to exist. One of the
yellow flowering species of sweet
clover is free of coumarin. It has,
however, undesirable characteristics,
such as low yield and low growth
habits. Many unsuccessful attempts
were made by various scientists to
cross this yellow flowering species
with high yielding varieties of
sweet clover. Dr. W.K. Smith, of the
University of Wisconsin, finally suc-
ceeded in making the cross in 1915
by the use of an intricate grafting
procedure.

In 1916 the Dominion Crops La-
boratory, Saskatoon, obtained a few
seeds from Dr. Smith. The five
plants that grew from these seeds
were found to be free of coumarin,
but they lacked vigour and were
therefore not suited for Canadian
conditions. In 1947 the plants were
crossed with several agronomically
desirable strains of sweet clover and
by 1950 the breeding nurseries in
Saskatoon had developed some 80
different strains which were either
completely free from or contained
only traces of coumarin. From this
material coumarin-free sweet clover
varieties should soon be available
for general distribution.

Seagram TELLS THE WORLD ABOUT Canada

This advertisement was designed by
The House of Seagram to tell the people
of other lands about Canada and things
exclusively Canadian.

Many people in Latin America, Asia,
Europe and other parts of the world are
not fully aware of the richness of Canada's
natural resources, wild life, scenic beauty
and cultural traditions. The more the

peoples of other lands know about our
country, the greater will be their interest
in Canada and Canadian products.

The House of Seagram feels that the
horizon of industry does not terminate at
the boundaries of its plants; it has a broader
horizon, a farther view—a view devoted to
the development of Canada's stature in every
land of the globe.

M.V.B.C. NEWS

A carload of M.V.B.C. folk spent the weekend in Edmonton. Mr. G. Lyle Richardson and Miss G. Eby held a weekend Bible Conference in the United Missionary Church of that city. Mrs. Suder, Stanley Cox and Iris Schlitt accompanied them. Good weather was appreciated, as well as good roads.

Miss Grayce Snyder spent the weekend with relatives. Our housekeeper is a busy lady planning for the needs of both student body and faculty.

Canadians do not celebrate Thanksgiving with the same degree of activity and sentiment as do the Americans. We have a number in the College who have come from the States, and because their great national day was so close at hand they celebrated it by taking a trip to Calgary. The rest of us here are Canadians, but we do want to say that we appreciate our American friends and were so happy to know that they were able to go on this occasion. They tell us that the food was good and the people who served them did a wonderful job when they knew the purpose of the trip. But shouldn't real Canadians do that for those who are "strangers" in our midst? Well, perhaps we shouldn't say it just that way, but we are happy with you, American friends!

A large number of students were away for the weekend. Some sang and preached; some visited their homes, and no doubt had a part in some Sunday activity on their own churches. Even students like to get away occasionally, but we notice that they are always eager to come back, and Monday is usually buzzing with excitement here because there are so many things to talk about. Why, they haven't seen each other for two whole days!

It has been so long since we have submitted articles in this column that we have not yet told you about the two lovely occasional chairs that friends gave us for the Student Lounge. We thank them heartily.

We have said so much about the busy campus of days past, but it is still so. A few men are daily working on the heating of the Tabernacle. We haven't checked on it too closely, but we do know that radiators have been installed in some of the inside lined with wall board. This is a wonderful improvement, and a great many are actively interested in the completion of this large building so that it may serve the public to a greater degree. We appreciate these friends who are so interested in the extension of the work maintained in their own town for they know that it is worth while—an asset, not a liability.

We, too, are counting the days until Christmas. The Music Department is busily engaged in preparing for it, and soon announcements will appear regarding the type of program that will be presented. Even though this is early, plan to attend the Christmas Program put on by this department of the College. It will be worthwhile.

NEW HIGHWAY SAFETY TRUCK NOW ON ROAD

Carrying the gospel of highway safety to high schools in Alberta will be the duty of the new white

panel truck which goes into service this week as the first Highway Safety Education Unit of the provincial government.

The unit is sponsored by the Motor Vehicle Branch of the Provincial Secretary's Department and will be available to all schools with students at or near the legal driving age of 16. The unit will also serve groups and organizations interested in promoting highway safety.

Although primarily an educational unit which carries a 16 mm. sound movie projector, the truck will also be equipped with a first aid kit, tow chain, wrecking bar, firefighting equipment, a stretcher and flares so that its driver will be able to assist motorists in trouble. Inspector P.J. Rowan of the Motor Vehicle Branch has been placed in charge of the unit and is authorized to enforce the Vehicle and Highway Traffic Act on his travels as well as to arrest any motorist for traffic violations.

Mr. Rowan is a graduate of the Nylart Driver Training Course. He holds a certificate of proficiency in the St. John's Ambulance Association and is an experienced auto mechanic. During the past four years, he has travelled in parts of Alberta as an inspector for the Motor Vehicle Branch.

His job will be to inform the public on the Vehicles and Highway Traffic Act and the Public Service Vehicle Act as well as show films and lecture on safe driving. Schools or organizations wishing to use the services of the new safety education unit should contact the Motor Vehicle Branch at the Administration Building, Edmonton.
